

# Being the reason someone believes in the goodness of people

Am Namugenyi Moreen aged 21 years of age, a daughter to Lubanga Joseph and Nakamya Jane, Am the first child of 5 children in the family and am now running my private business as Fashion Designer at Kalagi 10 km from Mukono Town.

My 1st day to join MCSI

My 3rd year in MCSI

My S.4 class

My successful journey after school (Thank you MCSI)

My father was working with Coca Cola Company as a casual laborer and he was diagnosed that he had a problem with the spinal due to over lifting heavy things. He could not work anymore yet we were staying in a rental house in Seeta town and we were all still very young. The Elderest was me 8 years in primary one. Our mother became the father at home taking care of us, she was working as a cleaner at seeta parents primary school. The income she earned could not be enough for home requirements and taking us to school.

One day the Chairperson of the Village came to our home to check on our sick father, he asked why we were all home yet it was school time, we said we did not have books and fees, after two days he came back with Mr Ssozi Abbey from Mukono Child Support who recorded our names and took us pictures. None of our parents

took Mr Ssozi Seriously because many people had come to our home and took us pictures in disguise of getting Support.

I will never still forget the day when Mr Ssozi Abbey and a white man (Alle Jan) visited our small room in the suburb of Seeta Town and told my Father on bed that they are willing to help us with school fees, me and my follower sister Namanda Morion. In response my mother started crying but this was because of happiness. I was in Primary 3 and Namanda was in primary 2 at the age of 8 and 9. MCSI and WVU even paid House Rental arrears because the landlord had shased us out of his house because of the arrears.

Through support of MCSI and WVU, I was able to finish primary and Ordinary Secondary Level and passed in Grade one. My Sister also finished the same. We finished basic Education and enrolled for a two year course in Fashion Design by Government and my Sister was enrolled for a two years course in Nursing and she now works as a Nurse at JPAM Medical Centre, While for me am making dresses for women in different fashions and we are now earning a living **but all this success is because of Mukono Child Support Initiative and Wezen van Uganda.** We pay School Dues for our young ones and we have built a house for our father and mother through savings from our little.

Namanda Morion poses for a photo at her working place JPAM Medical Centre,

**I thank MCSI and WVU for supporting us, Your Support has not only shaped our lives but also installed hope in our parents and our young ones who are now accessing Education. We shall always be on our knees for Gods Mercies to you because we are what we are because of your intervention.**

Presently we are mature Adults and responsible citizens, it's through your hands that we are what we are today. Long live, Mr Ssozi Abbey, Alle Jan, Mathanel and all sponsors, may the Lord bless you abundantly.

**Blessings to you all.**

**Namugenyi Mareen**
